ArrayList program for Student Class

JAVA STUDY GUIDE & CODE EXAMPLES

ArrayList program for Student Class

class Student{

int rollno;

String name;

double marks;

Student(int rollno,String n,double m)

{

this.name=n;

this.rollno=rollno;

this.marks=m;

}

void display(){

```
System.out.println("Rollno: "+rollno+"Name: "+name+"Marks Obtained:"+marks);}
```

char calculateGrade()

{

if(marks>80)

```
return 'A';
```

else if(marks>70)

```
return 'B';
```

}

}

class Demo

{

public static void main(String[] args)

{

```
ArrayList<Student> s=new ArrayList<>();
```

s.add(new Student(01,"Abc",80)); //Adding Student object to ArrayList

s.add(new Student(02,"Anitha",80.5));

s.add(new Student(03,"Ram",75));

```
System.out.println("All Students");
```

for(Student s1:s) //for-each loop

{

s1.display();

```
System.out.println(s1.calculateGrade());
}
}
}
```
